March 24

FCC,

If you only knew what the RFD-TV station means to the older people, you wouldn't think of taking it away from us. My husband is 96 years old and the programs are just what he likes.

We have direct-tv but only watch RFD-TV and PBS stations. Please don't take away our favorite programs.

Sincerely,
Ted and Jo McDonald

Dear Sirs,
I am writing in support of RFD TV
I enjoy the country music that I get no where else!
thank You
Jean Bergquist

To whomever at FCC -
Like Patrick says - "Its time to quit this nonsense!"
Please do not block or drop our RFD Channel for Rural and Senior programing!
We love ~~the~~ Country music Programs, Jimmy Sturr, and Molly B. (we very rarely miss them and would miss them "big time".) As retired farmers we also appreciate the ag. and horse shows.
We rec~~ DOCKET FILE COPY ORIGINAL~~ V programs through fiber optic cable from our local telephone Co.
Please do the right thing! Do not take over RFD Channel!
Thank you.

Al + B Berg

We watch RFDTV on Dish

I know for a fact that lots of seniors watch RFDTV on a regular basis

Jean McNutt

Dear FCC

Sending this letter to FCC to inform anyone involved that Verizon or any other big company that wants to drop RFD or any other small broadcasting company should be entitled to reconsideration for what it contribute to the rural and all of america. Clean wholsome & educational shows So far as I am concerned RFD is one of the top stations

Thank You
Duane Kenny

Attention: Direct TV

DOCKET FILE COPY ORIGINAL

Dear FCC

I am writing this letter because I want to keep RFD channels and all the rural programming stations. I do not want Verizon to discontinue these channels. I like clean wholesome broadcasting stations.

Thanking You,
Ella Kenny

Yes, we do need our R+FD TV.

Where else do we get:

Good information on Crop growing.

How to manage herbicides

the latest on the best machinery

Funny programs without murders

We like our R+D+TV

Keep it ~~keeping~~.

We are farm people - these special programs such as the horse shows - cattle shows etc. are special and seldom seen on regular TV or cable.

Thank You

16-41

We watch R7D daily and do not wish it to be discontinued. Take some of your programs off that are not fit to watch!

We live on a ranch and R7D is very helpful.

I watch RFD-TV on DIRECTV

My husband and I watch RFD all the time. To see and listen to Agricultural, Music, Heartland and Texas Reporter.

We love this channel and we plead with you to continue this programming.

This is the most informative programming of any channel there is. To delete it would be wrong. Please keep this channel.

Thank you.
Suzanne Coleman

FCC members,

My wife And I protest, strongly, your proposed ACTIONS AGAINST RfD T.V.

We are in our 70's And depend on RfD's programing for information and Entertainment Suitable To our interests And enjoyment. We find most other programing much lacking in value and far to much, even offensive due to offensive, even <u>Immoral</u> Content.

We not only need RfD for our needs But know How much our younger generations need a T.V. Station covering our rural and agricultural segments of our Great Nation.

I'm saddened to tell you some of our young extended family are ignorant of How valuable even critical agriculture is for All Americans.

We Ask for the cessation of your efforts To remove RfD from Existence and yield To working for A more BALANCED governance of the T.V. industry including BANDING THE filth so available DAY And NIGHT - NOT RfD.

Sincerely
Clarence and Dan Walker

Dear Patrick.

As you requested here is my letter to the FCC - We have Direct TV and watch RFD TV a lot. Enjoy the line up of programing and the only one who has country music which we really like also enjoy the farm programs - your line is great. We ask this station not be messed with in any way as we watch it every day and really enjoy it. I am 88 yr old, disabled and not able to be out so that's about what I can do and am sure there is a lot of others like me.

We live within 50 miles of 3 TV Channels that Direct will not put on. We would love to get WBTV Charlotte, Bristol, Va, Johnson City, Tenn. We have moved in with our daughter due to health reasons and she had Direct TV. we tried to have it disconnected but was to expensive.

If you care to call me my phone is 828-765-9328 - Please Keep this station on -

Dear FCC

I am writting this letter to you in reguards to agenda # 16-41
My name is Robert Little, my wife Sonia and i reside at 400 Kruse Rd Lovelock, NV 89419.
We have satalite Television on the Dish network - We watch more programs on channels other than the major big 4 networks. W especially enjoy RFD-TV programming and watch it most of all. We would be very disipointed if these smaller networks and programs were eliminated and probably would not watch much TV at all.
Thank you for conidering our Concerns.

Sincerly;
Robert Little
Sonia J. Little

Dear FCC — 16-41

I watch RFD on Direct TV. about 8 hours per week. I like the entertainment and the other programs are informative.
This station is needed. Please keep it going strong for us.

To: F.C.C.

I have dish network and really enjoy R.F.D., I get prices for livestocks and grain, also abot of knowledge on farmer in general, I hope you can do something to help R.F.D. stay on the air, People need to know where there food comes from. where there is no food people will die. RFD helps to send information on how food is raised and sold. Also information on clean water is very helpful.
