Comment of opposition to RM-11769

The petitioner suggests that Morse Code is anachronistic, inefficient, and unnecessary. It is my opinion that, on the whole, amateur radio is anachronistic, inefficient, and unnecessary, as are the American Flag, the Statue of Liberty, and our National Parks & Forests. His recommendation to decrement Morse Code in favor of his preferred mode of operation is un-American, anti social, un-neighborly, and not in the interest of international good will.
