

60001841762.txt

Morse code is the oldest tradition of the amateur radio operator. This government (or certain people in it) seems to want to break tradition and establish new rules, more modern. There are thousands of amateur radio operators who use this form of communication everyday, and is by far the most efficient means of communicating on a low scale, used for emergency's, and just plain fun. If these people want to update tradition, let them use CELL PHONES! LEAVE OUR CW ALONE!
