Regarding RM-11769

Petition for Rulemaking eliminating Exclusive CW Subbands (11)

I have been an Amateur Radio Operator for 45 years, hold a Bachelor of Science Degree in Electrical Engineering, and have many years of experience in communications technology.

The petition's recited "problems" are vague, confusing and not susceptible to solution by the proposed actions. Petitioner's proposed "solutions" are difficult to understand, but would likely result in further conflict in the frequency allocations.

Therefore, RM-11769 should be denied.
