

I am opposed to proceeding number RM-11769.

Morse code (CW) is an integral part of the legacy of Amateur Radio. Leave the CW sub-bands as they are. More and more amateur radio operators are discovering the fun of using Morse Code and are joining the CW operator ranks each day.

RM-11769 is presenting a solution for an area of the amateur radio spectrum where NO problem currently exists.

I am an Amateur Extra Class Licensee, hold the call K6DF, have been licensed since 1964, and operate 99% CW.

Thank you for considering my comments and I respectfully urge the FCC to dismiss RM-11769.
