

Re:

DA No. 16-448, released April 25, 2016

To Whom It May Concern:

The City of Holyoke Gas and Electric Department is filing a petition for reconsideration by the Bureau in reference to CC Docket No. 02-6, and File Number SLD-963751. The proceeding number and release date are as follows: DA No. 16-448, released April 25, 2016. A FCC Form 474 was filed in error. The original application number (#937000 for Funding Year 2014) for a one-time extension was not filed in advance of the initial invoice deadline. There were a couple of transitional changes within our Department and the former contact person had left the position leaving the company shorthanded for a brief time. Everything since then has been filed in a timely fashion.

The City of Holyoke Gas and Electric Department is seeking reconsideration in order to resubmit invoicing. Attached you will find the FCC 474 that we originally filed. Any help on this matter will be greatly appreciated.

Thank you,

David Dupont

Senior Accountant
