

60002009376.txt

In reviewing the filing the petitioner characterizes CW (Morse Code) as some useless, defunct, ancient, and seldom used mode of communication. As a licensed amateur of over 40 years, I can tell you that CW is alive and well on the amateur bands and the activity level warrants continued CW-only sub-bands. CW and digital modes co-exist in harmony today and no further adjustment to the sub-bands is necessary.

For these reasons I respectfully urge you to DENY this petition.

Thank you for this opportunity to present my views.

Frederick Kieber, K9VV
