

REPLY COMMENTS TO THE AMERICAN RADIO RELAY LEAGUE'S COMMENTS OF 24 MARCH 2016 IN REFERENCE TO RM-11759:

In the aforementioned comments, the ARRL stated that their RM enjoyed a "....substantial support" from the then 190+ commenters.

Following the comments to today's end (25 May 2016), and accounting for dupes (accidental posting of the exact same comments by a unique correspondent) I count 183 AGAINST the proposal, 70 FOR. If this were a truly democratic vote rather than a public commenting period, the measure would have failed by 2.61:1

The League needs to check it's math.
