

Request for Waiver of FCC Form 471 Deadline - Springfield
Local Schools, 2410 Massillon Road, Akron, Ohio 44312 -
LOA Attached

Dear FCC E-Rate Program administrators:

After becoming aware of available cost savings & bandwidth increases for his school, the business manager at Springfield Local Schools asked me to submit a Category 1 471 application to upgrade the school's Internet Access - which I did. Unfortunately, this was the day after the defacto Form 470 application deadline, which didn't allow our 471 to be submitted until one day after the May 26th 471 deadline.

I was advised by our state E-Rate Coordinator and an SLD Helpline representative that I should wait the full 28 days, submit and certify the Form 471 application one day late, and request an FCC waiver of the deadline at the same time.

Please consider this FCC request for waiver of the 2016-17 E-Rate Form 471 deadline for Springfield's 2016-17 Category 1 FRN 1699134429 on 471 #161057738.

Thank You Very Much for Your Consideration.
