I find it adhorrent that this is allowed to continue. I received numerous calls concerning Medicare, calls for my adult son for some bill that he may have not paid but is not related to me in any way. I get robocalls on my office phone and home phone. i have signed up on the 'do not call' list but this doesn't stop any of the calls. I received upwards of 20 calls a day and ask that I be removed from their calls lists when I talk to a human but does not seem to do any good--they still keep calling.

I encourage the FCC and/or Congress to rectify the current situation to alleviate the constant calling and disrupti on to my privacy.
