Dear Sirs.

This is a letter of **APPEAL** regarding the above captioned FCDL regarding the following FRN:

FRN#: **2200041** - Eran Viner Company Inc. – Funding Reduced - The FCCs Eligible Services List states that installation and configuration of products and services is only eligible if it is a part of the contract or bid for those eligible products and services. These charges are limited to the initial installation of the underlying service. **The underlying service has not changed;** therefore the funding commitment will be reduced.

FRN **2200041** is for e-mail service which requires an update **each year** for the addition, deletion and upgrading of student, teacher and staff accounts which takes considerable time. It should be considered a configuration update at least or be changed to as an eligible maintenance service.

We therefore submit that this FRN should be funded as submitted which includes the installation and configuration charges. Failure to maintain these charges will result in an undue hardship for the school.

Sincerely,
