As a Consultant, I was instructed to request to contact one of the Schools Vendors and Request Reimbursements for the telephone communications be changed from Form 472 (Bear) to SPI (Service Provider Invoice). I requested this action to take place with my contact in at the Vendor (see Attached E-Mail in letter of appeal). Upon not hearing from the School or Vendor by the end of the Bear Filing Window. I assumed that they were receiving funds as credits on their bills. After the Bear Filing Window had closed I received a call from the School wanting to know the status of the bear and how much they would be receiving. I indicated that it was coming in a SPI. I also Requested a Funding Extension from SLD, which was denied. I than filed an appeal requesting that an extension be granted so I could file the Bears. The Appeal was also denied. I am again filing this Appeal to the FCC, as this miss understanding has costed the school much needed funds for the education of their student's and denied valuable technologies for the students.
- **Explain precisely the relief sought through this appeal.**
We are asking that the FCC grant us the ability to request funds reimbursement from the vendor and E-Rate so we can use these funds to provide additional technology for our students. I believe this can be accomplished by granting the School with a Funding Extension for the FRN's listed in the attached documents. We will file the appropriate Bear (Form 472) upon notification of Funding Extension Request.
