Robocalls need to be STOPPED to both land lines & cellphones. Consumers need some PEACE & need the ability to receive wanted calls instead of being inundated by robocalls from ALL organizations. We have a small home-based business & I keep a landline for emergencies since I have young children. However, I'm tempted to cancel the landline because of the # of robocalls I receive ALL DAY LONG regardless of the fact that I pay for an unlisted number. I used to be able to trust calls on my cell but now I'm receiving robocalls there as well. HELP! How can we receive the calls we want/need w/o all these 'junk' calls invading us all day long on both our landlines & cellphones?

Although we do not have any debt collection issues, I do not feel consumers who are struggling with finances should be tormented by debt collectors robocalling daily. Debt collection robocallers should notify consumers of their right to stop receiving calls. In addition, the number of allowed calls or texts should be limited to no more than three per month, and only to those who directly hold federal debt - not friends and family. The guidelines should be clear and readily available.

Thanks for your consideration.
