Robocalls are so obnoxious ! I do not owe anyone money & am not interested in receiving even LIVE phone calls to sell me things. Especially on my cell phone in the U.S. (the only country that I know of where you have to pay for incoming calls as well as outgoing - which is another outrageous thing in our country). Whatever you can do to eliminate Robocalls completely, I'm all for. No one needs to receive them for any reason that I can think of !

Regards,
