I am a 74 year old widow with an arthritic ankle joint that causes immense pain when I have to get up from my chair and answer the phone. I hate it when it is a robo call. I receive at least one a day. Sometimes I receive as many as 5 or 6 of these maddening calls telling me that my credit is good, but they can help me get lower finance rates. I don't need credit. My house is paid for so is my car. I don't charge things. I just want to be left alone from these darn calls. PLEASE STOP ROBO CALLS. THEY ARE ANNOYING AND THEY USE UP MY MINUTES ON MY CELL PHONE. I am on a limited monthly pension. Minutes cost money. Don't let robo calls use my minutes up PLEASE
