And while you're at it, please put a stop to robocalls of any kind to any phone, cell- or land-line. Make the DO-NOT-CALL list mean something! Robocalls make the do-not-call list a joke, since there is never a real person on the line to whom one can say DO NOT CALL! And while some robocallers include instructions to dial a given number to stop receiving calls, the instructions are always at the very end of the call and usually not functional.
