Just got off the phone with Brighthouse Cable Rep --recently sold to Charter Cable --Wanted to know why everyone who has cable is being charged extra \$2.50 per month for Regional Sports Network and extra \$4.00 per month for a Broadcast TV Fee...Who regulates this and how can these extra fees of \$78 annually get snuck in without customers being notified ahead of time to object? I don't watch any sports -yet I'm being charged a fee (tax). Same for Broadcast fee. Who gets this money and what are they spending it on?
