I can not express how Annoying it is to receive these Robi calls in my cell. Multiple times a day. It is ridiculous!! Just stop, these people should not be calling cell phones, it is out of control. One day alone I could have between 5-10 Robi calls and nothing changes when I wait through the long tedious message just to press do not call at the end. I stopped wasting my time now and just ignore the call but it still holds space up in my phone!!
