

60002092107.txt

I have of late been inundated with invasive and aggressive calls to both my cellphone and landline from marketers and debt collectors. They call under strange i.d.'s, with robo-messages about reducing my credit card debt, or threatening collection, or saying that the IRS is about to arrest me. I realize they are all scams, but it is intrusive, and harassment, and increasing every week. Please MAKE IT STOP.
