Re: Ex Parte Notice  
*Use of Spectrum Bands Above 24 GHz for Mobile Radio Services, et al.*  
GN Docket No. 14-177, IB Docket Nos. 15-256, 97-95, RM-11664, WT Docket No.  
10-112 (“Spectrum Frontiers”)

Dear Ms. Dortch:

On June 3, 2016, Iyad Tarazi, Chief Executive Officer, and Kurt Schaubach, Chief Technology Officer, of Federated Wireless, Inc. (“Federated Wireless”) and its counsel, Jennifer Richter and Steve Rowings of Akin Gump Strauss Hauer & Feld LLP, met with Federal Communications Commission (“Commission”) staff to discuss the above-captioned proceeding. Commission staff in attendance at the meeting were: Brian Regan, Blaise Scinto, John Schauble, Chris Helzer, Nancy Zaczek, Catherine Schroeder, Steve Buenzow, and Simon Banyai of the Wireless Telecommunications Bureau; Martin Doczkat and Barbara Pavon of the Office of Engineering and Technology; and Jose Albuquerque of the International Bureau.<sup>1</sup>

Federated Wireless highlighted the points raised in its initial and reply comments in the Spectrum Frontiers proceeding, including the value of applying spectrum sharing technologies such as the Spectrum Access System Federated Wireless is developing for use in the Citizens Broadband Radio Service to the millimeter wave bands.<sup>2</sup> Federated Wireless also reiterated its support for the Commission’s efforts to make spectrum available for premises occupants and other indoor users through innovative sharing regimes and encouraged the Commission to continue seeking such solutions in the millimeter wave and other bands, including at 37 GHz. Finally, Federated Wireless urged the Commission to foster the development of a robust shared spectrum ecosystem, including through the establishment of near-term “use or share” obligations for licensees.

Respectfully submitted,

\_\_\_\_\_/s/  
Kurt Schaubach  
Chief Technology Officer  
Federated Wireless, Inc.
