I have, in spite of registering both my cell number as well as my land line, been harassed daily by robocalls. These vermin persist multiple times a day ignoring my demand that they stop. None of these calls are from debt collectors, they are various sales people, diabetic supply, timeshare offers etc. The diabetic supply in particular have made as many as 10 calls per week despite the fact that they've been informed my husband (diabetic) has been deceased for 5 months now! Needless to say these repeated calls are extremely upsetting for me. We've NEVER, at any time, utilized these companies for his supplies yet they will not stop calling. This has been an issue I've reported in detail for years now yet I see no relief. Please, Do something to make this stop!
