Please put an end to the CONSTANT ROBO-CALLS I receive on my business cell phone. I'm a working Contractor, and need to answer my phone in case it's a client. It is mostly "You've won a cruise" or "You can lower your interest rate" nonsense from spoofed phone numbers that are not in service, yet show as a local call in my area. I'm often covered in caulk, paint, or stucco when I have to stop work, and get the phone.

The "DO NOT CALL" list is a joke, that is ignored. This is really getting insane-
YOU CAN HELP!!!!!!!!!!!!!!!!!!!!
