

60002098274.txt

We already get about a dozen robocalls every day starting in the AM and continuing through about 9PM. Once we got a call at 4:15 AM! Many of these calls are from companies we've never heard of claiming we owe money on an existing account. These are mostly on our land line. Strict, rigorous guidelines must be applied to all phones: cell phones and land lines. These calls are not only annoying; they're intimidating. You must find away to stop them.
