### Notes to Consolidated Financial Statements

Years Ended December 31, 2015 and 2014

---

#### Note 1 - Organization and Summary of Significant Accounting Policies, continued

##### National Broadband Plan and FCC Order, continued

In 2014, the FCC issued Orders for Reconsideration that included provisions to eliminate the quantile regression benchmarking analysis (this removes the limitations on capital and operating spending contained in the Order), reinstate the safety-net additive on a limited basis that was eliminated as part of the Order, and continue the transition of the local rate benchmark. In 2015, the FCC continued to work on further reforms. An FCC Order reforming universal service support and that provides the option for a voluntary election by rate-of-return carriers to receive model-based support under an Alternative Connect America Cost Model (A-CAM), rather than based on its own costs, was issued March 30, 2016. The full impact of this order to the Association cannot be reasonably determined at this time.

The Association continues to monitor its local rates and as of December 31, 2015 the Association meets the local rate benchmark requirements of the Order. The Association is not subject to the \$250 per line support cap. Furthermore, for the period ended December 31, 2015 the impacts to the Association related to the 5% annual decline in switched access revenues have not been significant.

The overall reform process will continue to take place in phases and will take several more years to implement. Furthermore, it is anticipated the FCC will continue to issue Further Notices of Proposed Rulemakings and/or Orders for Reconsideration and continue to seek comments on various items. As a result, the ultimate outcome of these proceedings and their impact is uncertain at this time.

##### Reclassification

The presentation of certain prior year information has been reclassified to conform to the presentation in the 2015 consolidated financial statements. Such reclassifications have no effect on members' equity or net margin.

##### Subsequent Events

The Association has evaluated subsequent events through April 12, 2016, which is the date the consolidated financial statements were available to be issued.

#### Note 2 - Marketable Securities

As mentioned in Note 1, at December 31, 2015 and 2014, all marketable securities have been categorized as available for sale and are stated at fair value in the consolidated financial statements, with unrealized gains and losses included in accumulated other comprehensive loss as a separate component of members' equity.

The Association has adopted a hierarchical disclosure framework, which among other matters, requires enhanced disclosure about investments that are measured and reported at fair value. This framework prioritizes and ranks the level of market price observability used in measuring investments at fair value. The Association's marketable securities are measured and reported at fair value on a recurring basis based on quoted prices available in active markets for identical investments as of the reporting date (Classification Level 1). There have been no changes to the methodologies used at December 31, 2015 and 2014.

At December 31, the Association's securities consisted of the following:

	<u>2015</u>	<u>2014</u>
Fair Value:		
Municipal and corporate bonds, government securities	\$ -	\$ 45,748

Realized gains and losses are determined on the basis of specific identification. Proceeds from the sale of marketable securities for the year ended December 31, 2015 were \$2,109,710 (\$1,505,508 in 2014) resulting in a gross realized gain of \$81,286 for the year ended December 31, 2015 (\$10,590 loss for the year ended December 31, 2014).

CoBank is a cooperative bank. Borrowers are required to invest a minimum of \$1,000 or 2% of their loan, whichever is less. Patronage dividends are paid annually in cash and in stock at the discretion of the board of directors of CoBank.

Effective September 1, 2012 the Association, along with two other telecommunications companies, formed Consolidated Business Services, LLC to consolidate various administrative functions. Services currently being provided to the companies include accounting, regulatory reporting, management services, and human resources. All three companies have a one-third ownership interest and any net income or loss will be distributed evenly to each company. The Association accounts for the investment using the equity method of accounting whereby the investment is recorded at cost and adjusted for the Association's share of income or loss. In 2015, the Association did not contribute any additional amounts and no income or loss was recorded (\$28,531 was contributed in cash and no income or loss was recorded in 2014).

#### Note 7 - Long-Term Debt, continued

The long-term debt agreement contained restrictions on the payment of dividends and redemption of capital stock by MATC. The terms of the long-term debt agreement also required the maintenance of defined amounts of stockholder's equity and certain financial ratios. The loan was paid in full in 2015.

#### Note 8 - Employee Benefit Plans

The Association participates in a contributory, multi-employer, defined-contribution saving plan administered by NTCA, which covers all full-time eligible employees. Employees are not required to make contributions to participate in the plan. Effective May 1, 2013 the plan was amended to allow employer contribution of 4% plus a dollar for dollar match of up to 4%. Additionally, it includes a 4% supplemental employer contribution for employees hired prior to May 1, 2013. The employer also reimburses the participant for any plan fees. Employer contributions to the plan were \$452,663 in 2015 (\$439,548 in 2014).

Effective January 1, 2013, all employees of MATC were transferred to the Association. As a result, all employee and employer contributions into MATC's 401(k) profit sharing plan (the Plan) ceased as of that date. Effective January 15, 2015 the plan was terminated.

#### Note 9 - Income Taxes

The following is a summary of the significant components of the deferred tax assets and liabilities as of December 31:

	<u>2015</u>	<u>2014</u>
Long-term deferred income tax asset (liability):		
Accrual to cash adjustment	\$ (31,000)	\$ (30,000)
State net operating losses	-	2,700
Unrealized loss on marketable securities	59,297	1,400
Property, plant, equipment and goodwill	548,000	673,000
Post-retirement health benefits accrual	<u>33,000</u>	<u>39,000</u>
Noncurrent deferred income tax asset	\$ <u>609,297</u>	\$ <u>686,100</u>

Income tax expense (benefit) consists of the following:

	<u>2015</u>	<u>2014</u>
Operating:		
Deferred provision	\$ 134,700	\$ 151,300
Current payable	59,440	256
Over accrual	<u>(8,204)</u>	<u>(4,983)</u>
Operating income tax	\$ <u>185,936</u>	\$ <u>146,573</u>
Nonoperating:		
Current payable	\$ 40,760	\$ 59,544
Over accrual	<u>(13,659)</u>	<u>(9,793)</u>
Nonoperating income tax	\$ <u>27,101</u>	\$ <u>49,751</u>

The provision for income taxes differs from the amount computed by applying the current statutory federal and state income tax rates to earnings before income taxes due to the effects of state taxes (net of federal benefit), nondeductible items, net operating loss deductions, prior year over or under accruals, the use of accelerated depreciation for income tax purposes and the patronage deduction allowed for margins allocated to patrons.

#### Note 10 - Other Long-Term Liabilities

The Association sponsors a post-retirement benefit plan (the Plan) that provides medical and dental benefits for eligible retired employees and their spouses. The liability for such benefits is unfunded.

At December 31, 2011, the Association amended the Plan to freeze plan benefits and cover only current retirees and those who had accepted an early retirement offer in 2012. The decision to freeze the Plan constituted a curtailment of benefits and resulted in one-time gain from the reduction of the projected benefit obligation and the amortization of remaining unrecognized past service cost over a 3 year period. This amortization was completed in 2014.

The following table presents the estimated status of the Plan at December 31 based on the valuation as of December 31:

<u>Obligations and Funded Status:</u>	<u>2015</u>	<u>2014</u>
Accumulated postretirement benefit obligation:		
Retired plan participants	\$ <u>897,665</u>	\$ <u>922,842</u>

Accrued Postretirement Benefit Expense	\$ <u>594,665</u>	\$ <u>615,651</u>
<u>Postretirement Expenses Includes the Following Components:</u>		
Interest on accumulated postretirement benefit obligation	\$ <u>39,174</u>	\$ <u>40,183</u>
<u>Changes in Plan Assets and Benefit Obligation</u>		
<u>Recognized in Other Comprehensive Income:</u>		
Net actuarial gain (loss)	(8,778)	81,731
(Recognition) amortization of prior service cost	-	(210,966)
Amortization of loss	<u>12,969</u>	<u>14,263</u>
	<u>4,191</u>	<u>(114,972)</u>
Total recognized in net periodic benefit cost and other comprehensive income	\$ <u>43,365</u>	\$ <u>(74,789)</u>
Benefit Payments	\$ <u>50,690</u>	\$ <u>69,210</u>

#### Assumptions

For measurement purposes, an 7% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2015 (8% in 2014). The rate was assumed to decrease gradually to 5% at 2017 and remain at that level thereafter. The weighted average discount rate used in determining the accumulated postretirement benefit obligation was 4.5% in 2015 and 2014.

MATC sponsors a non-qualified defined benefit, post-retirement benefit plan which provides certain health care benefits for retired employees and their respective spouses until the date of the retired employee's death. Benefits are based on years of service and the employee's average compensation for the five highest compensated years of employment.

The annual measurement date is December 31 for the post-retirement benefit plan. The following tables provide information about changes in the benefit obligation and plan assets and the funded status of MATC's post-retirement benefit plan:

In 2015 the Company approved providing post-retirement medical benefits to employees who began their employment prior to December 31, 1990 and who have worked for the Company for an uninterrupted period of not less than 30 years and subsequently retire prior to reaching age 65. The Company will pay the health insurance premiums for these retirees until the earlier of age 65 or when they become eligible to receive Medicare benefits. The cost of providing these benefits is accrued over the period of active employment. At December 31, 2015, the amount accrued for this post-retirement benefit is \$117,700 (none at December 31, 2014) and is unfunded. Adoption of the plan resulted in \$113,900 being recognized in accumulated other comprehensive income at that time related to the past service of employees covered by the benefit. This past service cost will be amortized out of accumulated other comprehensive over the average remaining service life of covered employees. Amortization of \$18,983 was recognized in 2015 (none in 2014).

#### Note 11 - Related Party

The Association entered into an agreement with Consolidated Business Services, LLC (CBS, LLC) in 2012 (Note 4) whereby CBS, LLC will provide accounting, regulatory reporting, management services, and human resource services for the Association. CBS, LLC provided services to the Association in the amount of \$668,827 in 2015 (\$848,382 in 2014). At December 31, 2015, there is \$63,694 payable to CBS, LLC for labor and expenses (\$78,887 was payable to CBS, LLC at December 31, 2014).

On September 1, 2012, MATC entered into a rental agreement for the use of their office building with CBS, LLC. During 2014, CBS moved out of the building, therefore MATC received zero rental payments in 2015 (\$7,000 during 2014).
