

60002184325.txt

I am very much in favor of more competition in set-top boxes, cable, and everything else. My town, Alameda, in the San Francisco, CA market, installed its own cable system which, unfortunately, was sold to Comcast. What I get from Comcast is slow, poor, expensive service. My technology tech tells me the AT&T landline alternative is even worse.

Comcast is spending million\$ to pressure you and legislators to sway its way. Their success should be based upon competitive and improved products and services, not monopolization and insider favoritism.

The latter is why I persist in my efforts to reduce the influence of money in politics with legislation titled The Fair Elections Fund—a Whole New Ball Game®, at www.thefairelectionsfund.com.
