Federal Communications
Commission,

Lately it seems, rural programming is being pushed aside. A big mistake for the farming community that rely on market reports to keep their farms up to top production. The entertainment programming they also provide is America's last source of that type anywhere. Myself, I would be devistated if it were no longer available. Please keep RFD TV on the air and available for all those who wish to have it in their homes.

Please don't take off RFD-TV- from our viewing.

I understand shows come and go but my gosh. We still have P.B.S- don't we?

I'm from N. E- Texas and remember watching Texas Country Reporter w/ Bob Phillips- 20 years ago I moved to Oregon.

I had satellite awhile + watched RFD TV. Got sick moved Etc, Etc- then about a month ago I upgraded my local Cable T.V. to get MAV T.V. cause I enjoy auto Racer.

Then I noticed RFD-TV was so Happy.

SIRS:

It has been rumored that The T.V. Broadcast of R.F.D. Channel is being Hampered - & strongly objected - R.F.D. is the only Channel that provides wholesome programs and ups to date info on Farms - Cattle &c. that is so enjoyable to us old timers who grew up on farms in the South & Midwest.

Most other Channels Are Too Crude & Vulger for a family To Watch - Please do Not take R.F.D. off the air.

Last month our local cable company increased our service from $117.06 to $128.00 a month. Oh my! For retired folks, that is a huge increase! But, because of RFD, we will carry on. However, if the FCC unfairly drops RFD, we are considering dropping cable. It took us a long time to make the decision to take the next cable package which included RFD because of the cost increase; but RFD was the channel we really wanted! What a great decision! We love every program on RFD!

We love the hometown people, the multi-talented musicians and most of all, friends who are not afraid to

call on Gods' name!

Please keep RFD - one of only two or three stations minus ALL THE VIOLENCE AND OFFENSE ON T.V.

Sincerely,
Loyal RFD Viewers
