Dear FCC,

I'm writing because I fear independent broadcasters like RFD-TV may be forced off the air.

RFD-TV is a necessity to rural + agricultural America for several reasons:

1) up to date markets
2) Ag topics pertinent to today's farming practices and not covered by other channels
3) relative to people who farm + feed the world
4) carries religious programs

Please re-evaluate the % of population who rely on this broadcasting and the quality of life it offers. No programs are unfit for family viewing - no blocking shows from kids. And the musical entertainment is #1 - America needs this type of TV in this day + age.

Dear - FCC - 1641

I am a 83 year old, and the program that is fit to see is On. RFD. TV. So Please use your time and energy some where else instead of trying to take the channel off that I enjoy seeing.

This is the best channel on TV. that has some programs that have values for people If you are one left isolated in our world situation today you would leave this station alone. The other channels need to do like wise. and put on more programs with-out sex, Violence, and killing people.

So leave us alone. and stay out of our lessons we pray God Will help the U.S.A. and people all over the world.

Get your act in order we pay for these programs

In Regards to Proceeding number 16-41. I watch RFD-TV on Dish Network. PLEASE do not allow Dish Network to squeeze independent broadcasters like ~~DISH Network~~ RFD-TV off the air or not offer it as part of their Programming available. all the programs on RFD-TV & advertising are very appropriate for younger viewers.

Thank you

Dear FCC,

I am writing in support of RFD TV and to request your support in the prevention of discrimination by some satellite and cable companies toward independent stations.

My wife and I watch RFD on DISH. Along with local Nashville stations and FOX news, it is a major part of what we watch on television.

DOCKET FILE COPY ORIGINAL

We have spent most of our lives (70+ years) living in urban areas. A few years ago we moved to a more rural area. RFD has been educational as well as entertaining. City Dwellers need to better understand the economic impact of agriculture. RFD is building bridges between rural and city dwellers. It also highlights interesting issues from all parts of the country.

Your serious attention will be appreciated. Sincerely,

James Pugh

Dear FCC-16-14-

There are so many channels on tv. with bad language, nudity and such, you could take off instead of RFD-TV. Please don't take it off. I am 92 yrs. old and my friends like me really look forward to most programs with-Nudity, foul language + bada advertizing. I enjoy the music and farm related interest.

I have a verizon

Cell phone as many of my friends do too, but I will change to another carrier if you continue your actions, some of my friend have done so already.

Dear FCC # 16-14

Please keep RFD-TV on the air I dont think its fair to cut the little guy out The farmers need the information it gives them.

Where else can you get the Polka and country music.

I had to hunt for a cable that would give me RFD-TV They did it because I told them that was the only reason I would I have free TV or antena TV. otherwise

I am 90 years old and had to sell the farm + move to town but I still need the farm reports, weather and Polka music.

Dear FCC - proceeding no. 16-41

We do not want RFD TV canceled because it has good country music on it, good information for the farmers, Lots of nice specials on country music artists & it is a good family channel that kids can watch.

If you want to cancel some TV channels get the ones with all of these murder movies & alien movies on it.

We hope you will consider these things before you make the big move.

Sincerely,

RE- 16-41 —

To whom it may Concern.

I am writing to ask you not to discontinue broadcasting of RFD. It would be a total disaster to people that have a farm background and also it would be tragic for the many people who depend on the ability for those who grow their own food and the many people who sell to "Farmers Markets" across this land. The many people living rural and depend on the RFDs for the many programs supplied for us folks living out in the country, we would suffer!! people who still live on small farms + depend on all the information that RFD supplies, it would be a terrible injustice!

Please consider this woman of 80 yrs old to express my thoughts + desires.

Lets keep RFD on the air.

Sincerely Iola Garrett.

Dear T.V. Friends,

I pray RFD TV will not be taken away. I am 86 years old and spend most of my time in my apt.

On Saturdays I watch that station 7 hours continually. I also like western shows such as Rodeos. week days I like CBS national news, and I like Jeopardy and Wheel of Fortune game shows.

Thank you for considering my choices.

RE: 16-41.

To whom it may concern-

The following shall be considered as an assessment of an impending detrimental and divisive sit uation. To discontinue broad casting of RFD on any urban based cable network is counter productive to educating urban population to the source of their food supply, and furthermore it would thwart the great effort accomplishment achieved by RFD in establishing a common bond between Rural & urban dwellers. That bond to be more specific is the Equestrian activities too numerous to mention; High School amateur, & P.R.C.A Rodeo and the support of Farmers Markets & "you pick" farmers across the land. Please Consider this 81 yrs old farmers opinion. We have "Dish"
