

I work for EagleNet, a division of Eagle Computer Technology, Inc. in Holland, MI. We would like to voice our opinion against the merger of AT&T and TCI. It is not in the public's best interest to allow TCI to monopolize physical access to Cable-Internet. At a minimum, we, as an ISP, should be able to access the cable infrastructure. We would like cable companies to do provide wire and head-in equipment which would allow them to sell Internet access to us.
