FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY
MM Docket No. _____
RM No. _____

**REQUEST FOR NEW FM RADIO CHANNEL PLACEMENT
&
CHANNEL CHANGE ORDER TO KHIM, MANGUM, OKLAHOMA**

Good Government Radio submits a request to the Federal Communications Commission to place a new FM channel at Tipton, Oklahoma. Good Government Radio (GGR) has hired a person which is knowledgeable in FCC and technical matters, but the certifications and representations made in this request are by a principal/partner of the petitioner. GGR exercises its right to petition for a new FM radio station channel, and if GGR is the successful applicant, it will give average American citizens an opportunity to express their views.

The channel request at Tipton is channel 249C2. According to the technical person retained by GGR, this station channel can be placed at Tipton if KHIM on channel 249A, Mangum, Oklahoma, is moved to channel 282A. In addition, the unused channel 246A at Eldorado, Oklahoma must be moved to channel 245A. When these moves are made, GGR can have channel 249C2 placed at Tipton, Oklahoma. GGR therefore requests the Commission issue a channel change order (also known as a show cause order) to the licensee of KHIM as to why it's licensed channel should not be changed to channel to 282A in order to accommodate the placing of channel 249A at Tipton. GGR makes the following statements:

General

1. Tipton, Oklahoma is an incorporated community in Tillman County, with a 1990 Census population of 1,043.
2. Tipton (Tillman County) needs an additional FM radio station to allow local citizens an opportunity to express themselves instead of playing music constantly.
3. Tipton meets the FCC requirements for local aural service, since it is incorporated and has community standing with the state of Oklahoma.

No. of Copies rec'd 014
List ABCDE M MB

4. GGR is a for profit group that will operate the new FM station at Tipton for profit and will file an application for a construction permit if the FCC allots channel 249C2 at Tipton.
5. GGR has attached the required certification for a petition for rule making filed without an attorney.
6. Required channel substitution expenses at Mangum, Oklahoma (KHIM) will be fully compensated by GGR if it is the successful applicant. GGR intends to be the successful applicant. GGR will also reimburse Eldorado, Oklahoma if a permit is granted at Eldorado before a permit is granted at Tipton.

Technical

1. The coordinates at the top of the attached channel runs were used as reference for the attached study.
2. Channel 282A at Mangum and channel 245A at Eldorado can be substituted without additional substitutions.
3. The studies for these two channels use the FCC database coordinates as reference.
4. Required Channel Studies.

Study # 1 confirms full spaced requirements for channel 249C2 - Tipton, OK
(after changes at Mangum and Eldorado).

Study # 2 confirms full spaced requirements for channel 282A at present site of KHIM
Mangum, OK.

Study # 3 confirms full spaced requirements for channel 245A at present site of AL246A
Eldorado, OK.
5. After these substitutions, the spacing study demonstrates that channel 249C2 can be placed at Tipton without shorting any other stations or channels.

Conclusion

1. Channel 249C2 is clear for allotment at Tipton after channel 282A is changed for channel 249A at KHIM, and channel 246A is changed to channel 245A at Eldorado, Oklahoma.
2. GGR will file for the channel when the window is opened at Tipton, and if granted the CP, will serve the residents of Tillman County with an aural service that promotes FREEDOM OF SPEECH.

Certifications

1. See attached signature page and certificate of service.

CERTIFICATION

I, Ellinor Nelson of Good Government Radio, the petitioner for channel 249C2 at Tipton, Oklahoma, do hereby verify that the statements contained in the instant document are true and correct to the best of my knowledge and belief.
