REF: In the matter of WT Docket 98-143

Dear Sir:

I am against the matter of the FCC removing the code requirements for the Novice and Tech Plus licenses. I think that the code speed should remain at five (5) WPM solid copy for the Novice and Tech Plus and thirteen (13) WPM solid copy for higher class licenses.

I think that certain high standard requirements should be set in order to maintain the quality of amateur radio.

Your consideration would greatly be appreciated. Thank you.

Yours truly,
