

I don't want to lose my tv channels in 1999. I have a sat. dish.

I get NBC ABC & CBS I can't get them any other way. If I pay for it  
whats the big deal in having these channels on the big dishes?

We are willing to pay for these channels I think we should  
have them. That the goverment shouldn't tell us we can't have them.

I rather see some of the selling channels taken off air.

The xxx rated channels ads show bare bodies take those off the  
big dishes not reg tv that kids can watch.

Thank You for your time

Susan
