The representatives of the Affiliates provided information regarding the current status of satellite delivery of NBC television network programming to homes receiving Grade B signals from Affiliates members, requests for waivers of the provisions of the Satellite Home Viewer Act ("SHVA") that broadcasters have received from viewers, and efforts that broadcasters have taken to respond to such requests. The Affiliate representatives discussed the harm that is resulting from the loss of viewers to out-of-market NBC signals delivered by satellite carriers and the continuation and worsening of this harm if significant changes were to be made in the determination of Grade B coverage with regard to SHVA. The Affiliate representatives discussed the extent of the Commission's authority with regard to SHVA and recommended that the Commission should support local-into-local legislation and the use of the testing methodology and the Longley-Rice method of predicting Grade B coverage used in the agreement between broadcasters, PrimeStar, and Netlink. Affiliate representatives also presented two maps, copies of which are attached to this notice.

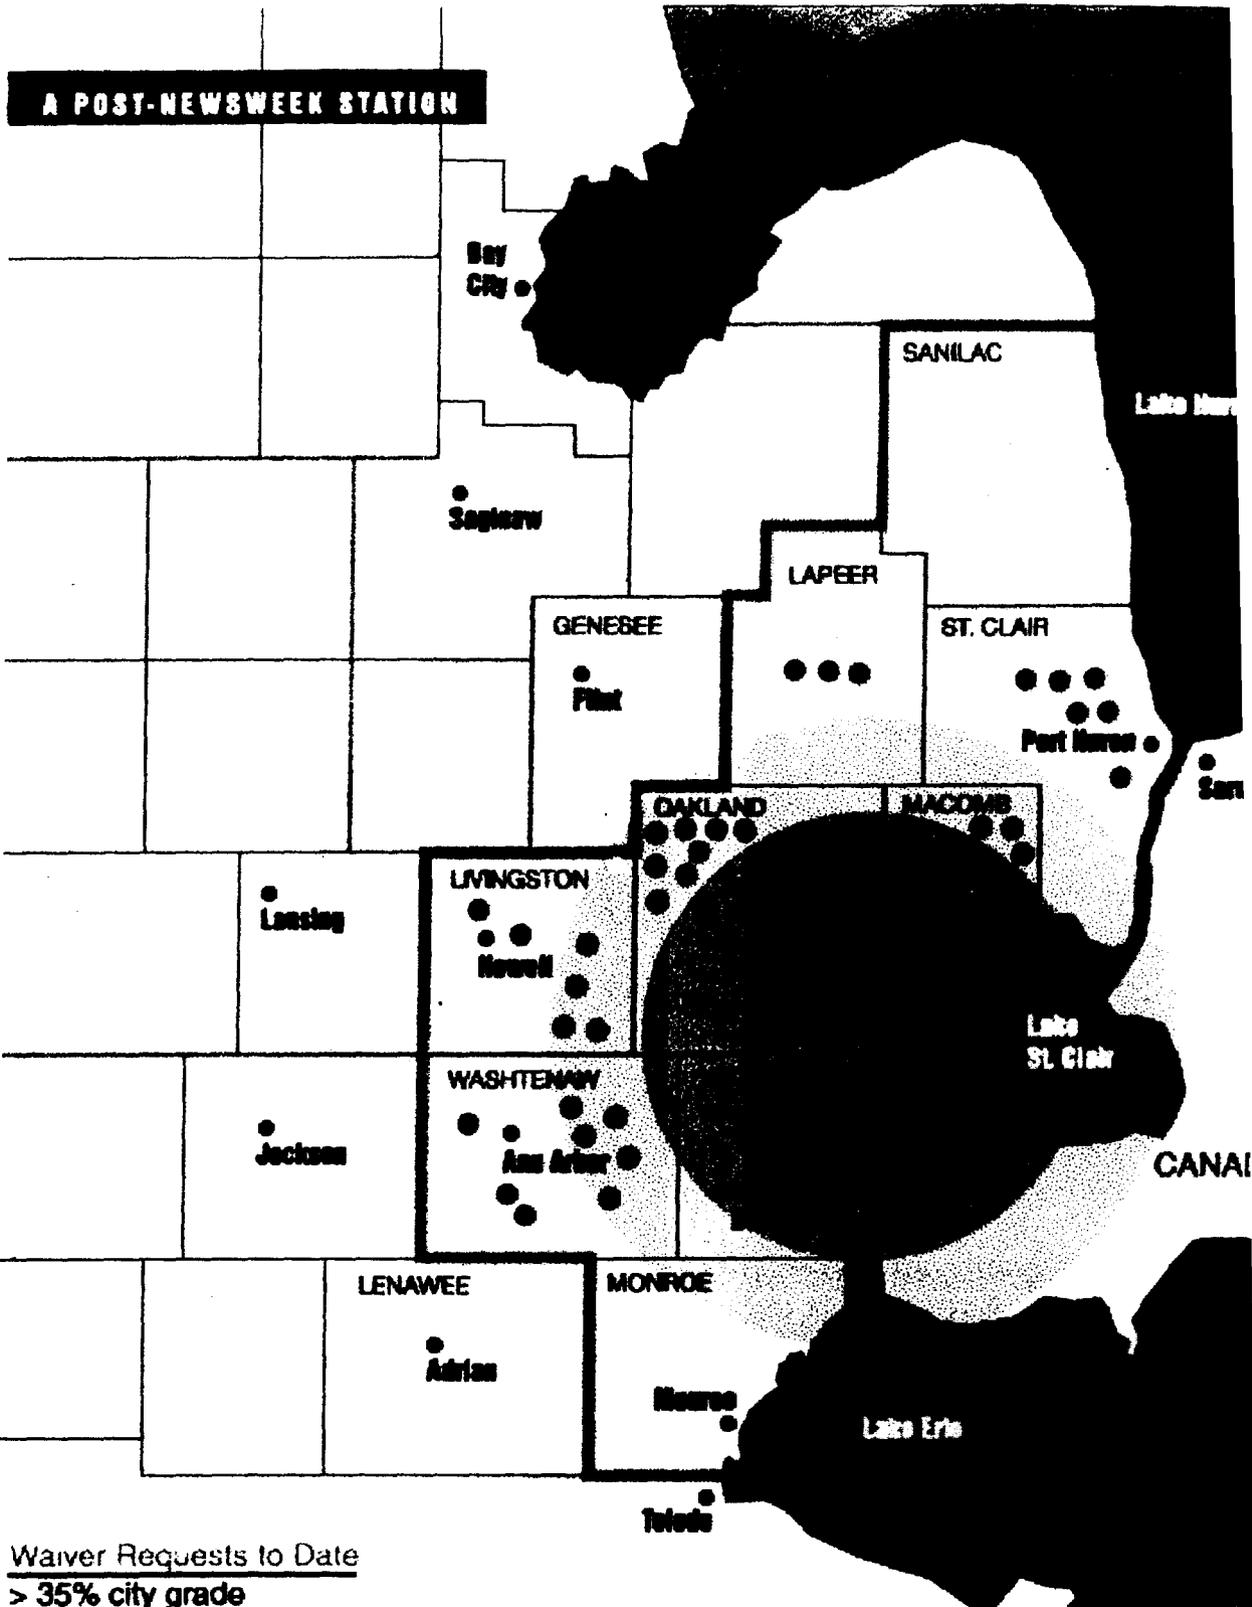

If any questions arise concerning this notice, please contact the undersigned.

Sincerely,

David H. Pawlik  
Counsel for the NBC Television Affiliates
