

I have a satellite dish permanently attached to my motorhome and have requested a waiver from CBS, first letter written in Aug '98. I have received one response (denial of waiver)but have not been able to communicate further, either by mail or by phone. CBS(KYW3 Philadelphia)will not respond so that I can explain my case. I have contacted my Senators in NJ for their help in resolving this problem. I feel that Recreational Vehicles, such as mine, should not be subjected to the same standards as viewers at a fixed location. Thank you, Joseph G. D'Amico
