

As a Feneral class amateur licensee for over 20 years, I feel that the proposed grouping of General class licensees who passed the 13 wpm code test in with no code or 5 wpm licensees is not fair to the General Class holders. I feel that General class holders like myself, who have held General class licenses over 20 years should be grouped into Class B rather than Class C. Putting us in Class C degrades the status of our current licenses.

Thank you,
James S. Hanson, K6TAS
