

sir: am amatuer radio operator, aa9jv and I support the proposal  
of No-code International. I believe the morse code exam is no  
longer relevant. Also think cw has too much spectrum space. Why  
give half our HF spectrum to less than 10% of our operators? We  
need to encourage younger operators, not haze them with cw. We  
need new blood on HF to make amatuer radio interesting again.

                    thanks Jerry Godshalk     aa9jv
