

I am a Amateur radio operator, mycall is N9VXQ.
I would like to say that I support the proposal from No-Code International. I believe the requirement of Morse code testing should not be used, because it is no longer relevant. It has become a "filtering device" to keep otherwise well qualified people from becoming Radio Amateurs. It should be eliminated as a requirement for Amateur Radio licensing immediately. I would like to see it become a privilege to use and learn, if one wants to use the mode. Thank you for reading my comment, and I support the FCC in all of it's goals for Amateur Radio.
73 and have a great day, Jimmie L. Giles Jr. "N9VXQ"
