Date: February 8, 1999

I am filing these comments to show my support for the Petition for Reconsideration filed by The Personal Radio Steering Group, Inc., P.O. Box 2851, Ann Arbor, Michigan, 48106 dated January 13, 1999.

I am a licensed GMRS user, GMRS repeater owner and repeater manager and I agree with the points listed in their petition for reconsideration. One of my major concerns as a GMRS user is that the proposed changes would allow all GMRS users to transmit through any repeater they desire without the authorization of that repeater owner, yet, each repeater owner is required to police the transmissions through his / her repeater. I believe that the Personal Radio Steering Group in their petition for reconsideration voices the feelings on a very large segment of GMRS user community who desire that self regulation continue to play a large part in the regulation of the GRMS. Thank you for adding me to your list of GMRS users supporting the Personal Radio Steering Group's petition.
