**F.C.C.
OFFICE OF THE SECRETARY
WASHINGTON, D.C. 20554**

Gentlemen:

The rule changes that Docket 98-20 propose will alter the way GMRS was set up. Unfortunately, it will not enhance the use of GMRS but will hinder it and create chaos, much like what CB has become.

If I may suggest that frequency 462.675 remain as is and that all GMRS users must have permission to use repeaters other than their own; otherwise, it would seem to GMRS Licensees that the F.C.C. no longer cares how GMRS is used.

Sincerely,

Allen Emerson
