

In the Matter of Creation of a Low Power Radio Service  
Mass Media Docket 99-25

Please deny the request by the National Association of Broadcasters for an extension of the comment period in this Docket. All of the people interested in this Docket have had plenty of time to discuss this issue and to conduct research about it. Please keep the comment deadline of June 1, 1999. Let's move ahead to set up a new low power FM broadcasting service that will enable broadcasting from the neighborhood to the neighborhood.

Thank you for your attention to this issue and good luck with your work. Have a nice day.

Nickolaus E. Leggett, N3NL  
Amateur Extra Class Radio Operator  
One of the Petitioners in RM 9208
