FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

ORIGINAL

96-45

May 29, 1999

Dear Sen. Larry Craig, Sen. Michael Crapo, Rep. Mike Simpson, William Kennard, Susan Ness, Harold Furchgott-Roth, Michael Powell, Gloria Tristani, and Al Gore,

I urge you to strongly support the E-rate telecommunications discounts for schools and libraries.

The E-rate has an enormous impact, allowing thousands of schools and libraries to bring Internet access and distance learning to their communities for the first time.

Schools and libraries are just now beginning to reap the benefits of the E-rate. Sufficient funds are essential in order for this program to allow institutions to complete the rollout and implementation of their technology programs.

This year, the full \$2.25 billion in E-rate discounts is needed or many communities will be left without access to the information resources of the new millennium.

Thank you for your support of our school children and life-long learners. I look forward to your response.

Sincerely,

Kyle Clifford

FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

ORIGINAL

96-45

Jun 01, 1999

Dear Sen. Daniel Patrick Moynihan, Sen. Charles Schumer, Rep. Jerrold Nadler, William Kennard, Susan Ness, Harold Furchgott-Roth, Michael Powell, Gloria Tristani, and Al Gore,

I urge you to strongly support the E-rate telecommunications discounts for schools and libraries.

For a few years now, public schools have been waiting for E-rate funding to come through and help provide access to our inner-city communities. Our schools and libraries are just now beginning to reap the benefits of the E-rate and sufficient funds are essential in order for this program to allow institutions to complete the rollout and implementation of their technology programs.

The program that I work with has been working with schools and community organizations, actually installing wires and networking computers so that all people can have access somewhere in the community. We've started parent training programs in many of our schools and can't tell you how much of an impact internet access has had on providing valuable skills to people in our local communities.

Please help complete this program for our schools -- public schools are too often let down with promises left un-fulfilled.

Thank you for your support of our school children and life-long learners. I look forward to your response.

Sincerely,

Kavita Singh, Program Officer  
New Visions for Public Schools

Dear Sen. Phil Gramm, Sen. Kay Bailey Hutchison, Rep. Charles Stenholm, William Kennard, Susan Ness, Harold Furchgott-Roth, Michael Powell, Gloria Tristani, and Al Gore,

I urge you to strongly support the E-rate telecommunications discounts for schools and libraries. In this day and age when all the money they want goes to sports figures and famous people, we should be keeping in mind that money applied to education is money applied to the future of the U.S.

The E-rate has an enormous impact, allowing thousands of schools and libraries to bring Internet access and distance learning to their communities for the first time.

Schools and libraries are just now beginning to reap the benefits of the E-rate. Sufficient funds are essential in order for this program to allow institutions to complete the rollout and implementation of their technology programs.

Dear Sen. Edward Kennedy, Sen. John Kerry, Rep. Barney Frank, William Kennard, Susan Ness, Harold Furchgott-Roth, Michael Powell, Gloria Tristani, and Al Gore,

I urge you to strongly support the E-rate telecommunications discounts for schools and libraries.

The E-rate has an enormous impact, allowing thousands of schools and libraries to bring Internet access and distance learning to their communities for the first time. It enables us to conduct comparative studies with other students throughout the world. It also greatly enhances the research our students are able to do.

Schools and libraries are just now beginning to reap the benefits of the E-rate. Sufficient funds are essential in order for this program to allow institutions to complete the rollout and implementation of their technology programs.

This year, the full \$2.25 billion in E-rate discounts is needed or many communities will be left without access to the information resources of the new millennium.

Thank you for your support of our school children and life-long learners. I look forward to your response.

Dear Sen. John McCain, Sen. Jon Kyl, Rep. J.D. Hayworth, William Kennard, Susan Ness, Harold Furchgott-Roth, Michael Powell, Gloria Tristani, and Al Gore,

I urge you to strongly support the E-rate telecommunications discounts for schools and libraries.

To help our children and the country to be ready for the information revolution this technology and access has to be provided from early age on. Evereboddy should have access to information and this kind of thechnology. If you do not support that bill our children will have a disadvantage in the years to come.

This comes down to a basic right of education and people will have easier access to more information and a chance to educate themself further if we teach them early on the basic skills and give them a chance to access this new world of information.

The E-rate has an enormous impact, allowing thousands of schools and libraries to bring Internet access and distance learning to their communities for the first time.

Schools and libraries are just now beginning to reap the benefits of the E-rate. Sufficient funds are essential in order for this program to allow institutions to complete the rollout and implementation of their technology programs.

ORIGINAL

May 31, 1999

Dear Sen. John Warner, Sen. Charles Robb, Rep. Thomas Bliley, William Kennard, Susan Ness, Harold Furchgott-Roth, Michael Powell, Gloria Tristani, and Al Gore,

My son attends a Richmond City Public School, one of thousands of schools and libraries in need of Internet access and distance learning opportunities. I encourage you to support the E-rate telecommunications discounts for schools and libraries.

Government funding is necessary for my son's school to continue to develop and implement their technology programs, a perfect example that continued E-rate discounts are needed. The inequity that exists between schools is not ethical, please do not allow any schools and libraries to be left without access to necessary, electronic information resources.

Please support our school children and life-long learners by funding E-rate telecommunications discounts for schools and libraries. I look forward to your response.

Sincerely,

Sally Shumard
