The Supreme Court has consistently upheld the principle that broadcasters can be required to act in the public interest. The landmark case is Red Lion v. Federal Communications Commission. Despite changes in FCC policy over time, that 1969 decision remains a crucial legal interpretation of broadcast law, making clear that the broadcast spectrum is owned by the public, whose interests must be served.

LPFM Docket MM 99-25

FCC and DOJ ,Regress All NAB Stations to 10 to 3000 Watts , Plus Disband All Translators.

NAB and FCC i need you to regress the ERP Of 92.7 FM Rehoboth Beach Delaware and 106.5 of Lewes Delaware both License 's are not in said Communitys.I want to use My Airspace my Airways that belong to me for my

Comunity Radio Non-Profit 90.5 FM WRNB Station my Community is 3 square

Miles i need 50 Watts.Please adhere immediately.I know you want me to have excess to my Airways and serve my Community.

Federal Courts You Must Perceive the Difference between Monopolization of the Broadcast Industry,and the Monopolization of The American Publics Airway,By Corporate America.

Thank You
Mr.D'Alessandro

 Who is at fault for the Monopolization of The American Publics airways, is it the FCC or The NAB or both.

Airways can not be Monopolized by the use of high Wattage and Translators placed all over the United States,The NAB has Done this,aganist the Custom laws of our Nation,the Airways belong to the American Public not Corporate America.

Re-License all NAB stations only with the Necessary ERP of their License

Community,not state or several states.

Answer:

Mr. D'Alessandro,

Monopolizations Of Airways:

The size or location of a city of license has virtually nothing to do with the power allocated to a commercial FM station. Power levels are determined primarily by the channel they are on (i.e. some frequencies arecategorized as 3,000 watts and others at 50,000) and are justified in a license application with other technical criteria that must be met by the petitioner. If the petitioner can prove that they can operate on an available channel at a specific power level that falls within FCC guidelines the Commission merely grants the license,this is called Monopolization of the Publics Airways.

I FILE A SUIT and COMPLAINT AGANIST THE NAB FOR MY

The Radio Industry Belongs To the NAB Threw Monopolization ,But the
Airways

Belong to Olga and The American Public The NAB has Monopolized The
Airways
which is aganist the Law.

The Supreme Court has consistently
upheld the principle
that broadcasters can be required to act in the public
interest. The landmark case is Red Lion v. Federal
Communications Commission. Despite changes in FCC
policy over time, that 1969 decision remains a crucial
legal
interpretation of broadcast law, making clear that the
broadcast spectrum is owned by the public, whose interests
must be served.

LPFM Docket MM 99-25

FCC and DOJ ,Regress All NAB Stations to 10 to 3000 Watts , Plus Disband

All Translators.

NAB and FCC i need you to regress the ERP Of 92.7 FM Rehoboth Beach

Comunity Radio Non-Profit 90.5 FM WRNB Station my Community is 3 square

Miles i need 50 Watts.Please adhere immediately.I know you want me to
have
excess to my Airways and serve my Community.

Federal Courts You Must Perceive the Difference between Monopolization
of

the Broadcast Industry, and the Monopolization of The American Publics Airway, By Corporate America.

Thank You
Mr. D'Alessandro

Who is at fault for the Monopolization of The American Publics airways, is it the FCC or The NAB or both.

Airways can not be Monopolized by the use of high Wattage and Translators placed all over the United States, The NAB has Done this, against the Custom laws of our Nation, the Airways belong to the American Public not Corporate America.

Re-License all NAB stations only with the Necessary ERP of their License Community, not state or several states.

joseph dalessandro wrote:

Dear Joe Gallager:

Question who determines the amount of ERP a station is required if a station License resides in Clayton N.J. area 5 square miles he only needs 100 erp etc for clayton why would FCC grant him 3000 Or 10000 erp or more ????????????

Answer:

Mr. D'Alessandro,

Monopolizations Of Airways:

The size or location of a city of license has virtually nothing to do with the power allocated to a commercial FM station. Power levels are determined primarily by the channel they are on (i.e. some frequencies are categorized as 3,000 watts and others at 50,000) and are justified in a license application with other technical criteria that must be met by the petitioner. If the petitioner can prove that they can operate on an available channel at a specific power level that falls within FCC guidelines the Commission merely grants the license, this is called Monopolization of the Publics Airways.

PREFACE: Date 8/9/99

The NAB has Monopolize the Radio Industry, but the Real Crime is, the NAB has Monopolized the American Citizens Airways with Power Levels of Ten Thousand Watts to One Hundred and Fifty Thousand Watts, plus these same NAB Stations place "Translators" all over the

Working Washington*s Special-Interest Money System

How has the NAB been able to get so much support for its grab of \$70-billion worth of corporate welfare?

Monopolization of the Publics Airways!

The answer lies with two powerful advantages the NAB lobby wields. First, NAB is a major presence in every congressional district in the country. They have the power to report and shape the news, including the power to control how issues affecting their own operations Air Space "SPECTRUM"*such as the spectrum giveaway*are

covered. They also control how, and if, Members of Congress appear on radio and television. That makes legislators

extremely reluctant to take them on. "Most lawmakers don*t have the nerve to poke a stick in the eye of over-the-air network conglomerates," noted one telecommunications lobbyist.

Second, the NAB is a successful players in the Washington special-interest money game. NAB give generously to political candidates. They also spend millions to lobby

Congress, the Administration and the FCC, making sure that those who carry their message to the White House and Capitol Hill have stellar connections to Washington*s power elite. The NAB spend lavishly at the political

Study: Mergers Benefit Cos. Not Consumers

July 13, 1999 11:41 AM EDT

By Tim Dobbyn

WASHINGTON (Reuters) - Telephone companies rather than consumers have benefited most from two huge 1997 telecommunications mergers, a study prepared for the American Association of Retired Persons (AARP) said Tuesday.

AARP said the report raised questions about the consumer benefits of the proposed purchase of Ameritech Corp. by SBC Communications Inc.

The study looked at the SBC/Pacific Telesis and Bell Atlantic/NYNEX combinations of two years ago and concluded the companies had yet to achieve their goals of lower prices, better service and increased local competition.

“As much as federal regulators tried to protect the public interest during the regulatory review process, consumers have received little measurable benefit” from either deal, said Chris Baker, telecommunications analyst with AARP's Public Policy Institute.

SBC spokesman Selim Bingol said the study was wrong. “This report is more of a political document than a true research document,” he said. Bell Atlantic also disputed the study.

The purchase of Chicago-based Ameritech by San Antonio, Texas-based SBC would create a telecommunications giant with combined revenues of over \$40 billion and control of local access lines into one third of all U.S. households.

SBC and Ameritech have agreed to a set of market opening conditions that includes potential fines of over \$2 billion for nonperformance to get Federal Communications Commission approval for their merger.

FCC Chairman William Kennard has said the plan appears to address the objections of FCC staff but a 30-day public comment period has been set before the commission votes.

AARP said it would forward its study on the 1997 mergers and its comments on the SBC/Ameritech merger to the FCC.

In the area of service quality, AARP found the former NYNEX region had seen an improvement in most areas of service quality after merging with Bell Atlantic, but residential customers of Pacific Telesis territory

had seen sharp declines in service after being bought by SBC.

On price, AARP said the 1997 mergers had achieved their targets for cost savings but only a small portion had been passed to consumers as lower prices for basic telephone service.
