LET 98-143

DEAR MR. CROSS EX PARTE OR LATE FILED

THE QUESTION OF KEEPING MORSE CODE (CW) IN HAM RADIO IS SIMPLE, CW IS HAM RADIO DO AWAY WITH MORSE, THEN YOU HAVE TO DO AWAY WITH HAM RADIO. I SAY KEEP CW IN HAM RADIO FOR A REQUIREMENT TO GET A HAM LICENSE, AND HAM RADIO WONT BE ANOTHER CB.

PRIVATE WIRELESS DIVISION

Dear Chairman Kennard Sir:

The WTB and its Chief are about to make decisions that could gravely harm the security and safety of the United States, were world events to take a possible turn for the worst, with China and Russia in some future new alliance.

The WTB decisions likely, Bad; and under strong push from the Present ARRL Leadership, will or may also come to your office for review, and even your approval. To That End; The inclosed INFORMATION DOCUMENT may contain information that you were kept from, or otherwise did not know about.

Please overlook the error in the Title name, sent to the former WTB Chief. The INFORMATION DOCUMENT is still paramount in vital national interests.

RECEIVED

Thank you for your time Sir.

EX PARTE OR LATE FILED
7 Sept.1998

**TITLE: A PERMANENT MORSE STRUCTURE NEEDS TO BE
LEGISLATED INTO THE FCC AND MILITARY.**

Dear Mr.Dewana:

Your planned program to Alter, and thus degrade the status of MORSE-CODE is to be condemned. MORES CODE mite be severally needed; in a future time. By THE UNITED STATES. The present MILITARY-SATELLITE COMMUNICATION SYSTEMS are FOOLS GOLD.

Satellites are Dumb-Undefended-Sitting-Ducks. In a future time, Satellite Technology mite become very vulnerable. Satellites knocked down, leave The Pentagon a beheaded leader. HF would be all that remains. OMEGA can be Jammed. Undersea Cabels cut.

MORSE CW has THE LONGEST DISTANCE, over Voice and Digital, in degraded HF band conditions. Voice and Digital modes are vulnerable in Military and General Emergencys, and can FAIL; Where MORSE gets Communication delivered., in select Fadeing and Static. This is known as MORSE CODE SCIENCE, in Physics and Radio Science, a well established doctrin. Morse Science has been virtually LOST in THE FCC and USAF and USN.

Also; As Mr Foosner, former FCC Private Radio Bureau Chief said: "MORSE-CW gets through when HF conditions are very degraded" Mr Foosner added: "CW remains as a requirement for an HF Amateur License, because our country needs a body of skilled Morse Operators in times of emergencys and natural disasters." And; Voice or Digital mite not get through, effecting Life and property loss, or the loss OF THE UNITED STATES.

The "Modern" Military has become a "CB Mode" Satellite Phone, Telephone Operators. Fools Gold; Lasting only 10 minutes after the start of a superpower war, were there to be one. We "Lucked-out" in The USSR Years. Dumb stupid luck. Pearl Harbor all over again? it was dumb stupid luck the Japanese and Germans did not land on the coasts of The United States. The next Pearl Harbor on Washington DC ?

**THE SATELLITES ARE ALL KNOCKED DOWN AS ONE OF THE FIRST EVENTS
OF A SUPERPOWER WAR, WERE THERE TO BE ONE IN THE FUTURE.**

I have written The FCC and Military and DOD and other Government departments before on these Topics. Please check your files.

Our Traditional Allies have kept THERE MORSE SYSTEMS. The USN and USAF can not QNI, that is, "CHECK-IN" to there CW Military Networks! The USN droped the MORSE CODE requirements for Communication personell in 1990. DOD droped Morse for the USAF and ARMY, shortly after, as well droped for MARS.

The MILITARY needs to reestablish a GLOBAL MILITARY MORSE SYSTEM. It will REINFORCE and STRENGTHEN and add DETERRENCE-value to the Satellite Systems. METEORIODS make Satellites riskey. An Enemy can know when storms will hit. Meteoroids are expected to dammage or end much of The \$ 1. Trillion Dollar Satellite System, and reocure again and again, 100,000 Meteoroids per hour! The Safety, Survival, & Defense; of The UNITED STATES--depends on fragil plastic and metal and Epoxy-Glue Balls, delicate electronics, in hostile vacuum space!

The WWW and Internet is where todays youth is fascinated, not by HF Amateur Stations. Makeing Ham Radio a bunch of HF CBers is stupid. It risks The National Morse Skill Population. The USAF and USN have failed to see the value of MORSE as a REAL Backup for Satellites.

The HAARP Systems, aka "The Woospecker" systems, foes and USA, have to be turned OFF, to let vital communication through. **THEN ENEMY MORSE OPERATORS--RULE THE AIR-RADIO SKYS.** Morse can be read even through hard jamming, Voice and Digital.. N O. The intimate relationship between A MILITARY MORSE OPERATOR and his Receiver, allows the faint statically covered Dots and Dashes to be read. UNSTOPPABLE and **STEALTHY.** Stealthey here meaning "unstoppable".

DO NOT DEGRADE--LEADING TO ABOLISHING MORSE CODE. OUR COUNTRY FIRST. Not Sellout, to Manufactures. The Military needs to make a CORRECTION. The FCC needs to make a Correction, and; do all Testing for Morse Code HF Licenseing. Thankyou for your time.

Sincerely, Jim Beaudry. ARS:N6JUG, 40 Years Licensed; And;
