FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Re: Ex Parte Presentation  
ET Docket No. 95-18

Dear Ms. Salas:

Pursuant to Section 1.1206 of the Commission's rules, I hereby submit two copies of this letter to notify you that representatives of Celsat America, Inc. ("Celsat") held a conference call with members of the Commission's staff on Friday, October 15, 1999. The following individuals representing Celsat were present on the conference call: Dave Otten, President of Celsat, Paul Dent, engineering consultant to Celsat, Toni Bush and I of Skadden, Arps, and Mark Grannis of Harris, Wiltshire & Grannis. The following individuals from the Commission's staff were present on the conference call: Howard Griboff and Alex Roytblat from the International Bureau, and Sean White from the Office of Engineering and Technology. On the conference call, Celsat responded to technical questions concerning its ability to share 2 GHz spectrum with incumbent BAS licensees. Celsat also explained several simple methods by which interference between BAS licensees and Celsat could be avoided.

Please direct any questions concerning this matter to the undersigned.

Very truly yours,

Brian Weimer
