Re: ET Docket No. 95-18

Dear Ms. Salas:

Yesterday, Ellen Goodman and Victor Tawil, representing the Association for Maximum Service Television, and Karen Fullum, Kelly Williams and the undersigned, met with Dale Hatfield, Julius Knapp, Bruce Franca, Geraldine Matise, Tom Derenge and Sean White of the Office of Engineering and Technology, to discuss issues relating to the reallocation of spectrum at 2 GHz.

We discussed options for entry by MSS licensees into the spectrum now used for the Broadcast Auxiliary Service and for reimbursement of the costs incurred by broadcast licensees in obtaining equipment usable under a new channelization plan.

Please direct any questions concerning this matter to the undersigned..

Respectfully submitted,

Jack N. Goodman
