(Mojave, California) )

**PETITION FOR RULEMAKING**

To the Chief, Allocations Branch:

1. Linda A. Davidson ("petitioner") respectfully requests the Commission initiate a rulemaking proceeding for the purposes of considering amending Section 73.202(b) of the Commission's rules. In support whereof the following is stated.
2. Petitioner proposes the Commission allot FM channel 241A to Mojave, California as its second local commercial FM service. This would require amending Section 73.202(b) of the commission's rules as follows:

<u>Community</u>	<u>Present</u>	<u>Proposed</u>
Mojave, CA	249A	241A, 249A

3. Mojave is a Census Designated Place located in Southern California. In 1990, the United States Census Bureau estimated Mojave had a population of 3763 persons. Since both commercial FM channel 249A and non-commercial FM channel 201B1 are already assigned to Mojave, it qualifies as a community for allotment purposes.
4. FM channel 241A can be assigned to Mojave in full compliance with the Commission's minimum distance separation requirements. This is illustrated in Table A below, which lists stations and assignments within 240 kilometers. Coordinates used are N 35:07:26, W 118:10:09 and are located approximately 8 km north of Mojave. This site restriction is necessary to prevent a short spacing with KFSG, Los Angeles, California.
5. Petitioner, or an entity with which petitioner is affiliated, intends to apply for a construction permit to activate channel 241A if it is assigned to Mojave as proposed. If her application is granted, she shall promptly construct and operate the proposed station.
6. Petitioner hereby verifies and affirms that the statements given in this Petition for Rulemaking are hers, and are accurate to the best of her knowledge.

Respectfully submitted,

*Linda A. Davidson*
