**Re: Amendment of Section 73.202(b)
FM Table of Allotments
(Elkhorn City and Coal Run, Kentucky)**

Dear Ms. Salas:

Transmitted herewith on behalf of East Kentucky Broadcasting Corporation, the licensee of WPKE-FM, Elkhorn City, Kentucky, is an original and four copies of its Petition for Rule Making seeking the commencement of a proceeding to amend the FM Table of Allotments to specify Channel 276A at Coal Run, Kentucky as its first local transmission service in lieu of Elkhorn City, Kentucky and to modify the facilities of WPKE-FM, Elkhorn City, Kentucky to specify operation on Channel 276A at Coal Run, Kentucky.

Should any questions arise concerning this matter, please contact this office directly.

Sincerely,

John F. Garziglia
Patricia M. Chuh

Amendment of Section 73.202(b))	MM Docket No. _____
Table of Allotments)	RM No. _____
FM Broadcast Stations)	
(Elkhorn City and Coal Run, Kentucky))	

To: Chief, Allocations Branch

PETITION FOR RULE MAKING

East Kentucky Broadcasting Corporation, the licensee of WPKE-FM, Elkhorn City, Kentucky, by its attorneys, pursuant to Sections 1.401 and 1.420(i) of the Commission's Rules, hereby seeks the commencement of a rule making proceeding to amend the Table of Allotments for FM Broadcast Stations, 47 C.F.R.

§73.202(b), to specify Channel 276A at Coal Run, Kentucky, as its first local aural transmission service in lieu of Elkhorn City, Kentucky and to modify the facilities of WPKE-FM, Elkhorn City, Kentucky to specify operation on Channel 276A at Coal Run, Kentucky. As shown in the attached Technical Report, this substitution may be made in compliance with the Commission's current separation requirements.^{1/} In support whereof, the following is submitted:

1. East Kentucky Broadcasting Corporation requests that the FM Table of Allotments be amended as follows:

<u>Community</u>	<u>Present Channel</u>	<u>Proposed Channel</u>
Elkhorn City, KY	276A	- - -
Coal Run, KY	- - -	276A

^{1/} The reference coordinates for Channel 276A at Coal Run, Kentucky are 37-23-57 North Latitude and 82-30-32 West Longitude, at a site located approximately 13.4 kilometers south of Coal Run, Kentucky.

2. Coal Run, Kentucky is a community for allotment purposes. Coal Run is an incorporated city with a population of 262 persons (1990 U.S. Census). See Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88, 100 (1982) (requirement of an allotment to a community is generally satisfied if the community is either incorporated or listed in the U.S. Census).

3. In addition, Coal Run, Kentucky is self-governing with its own Mayor (Phyllis Muncy), City Commissioners (Ed Coleman, Jerry Bliffen, Rodney Smith, and Joe B. Ramsey, Jr.), City Attorney (Phil Stonaker), City Clerk (Debra Tackett), and volunteer fire department. Coal Run also collects property and occupational taxes.

4. As evidenced by the attached list and accompanying photographs, there are also numerous churches, organizations, and businesses located in Coal Run. Many of these churches, organizations, and businesses incorporate "Coal Run" in their names (e.g., Coal Run Church of Christ; Coal Run Processing Plant; Coal Run Coal Company). See Kenansville, Florida, 10 FCC Rcd 9831 (1995) (existence of a number of organizations incorporating the community's name is indicative of community status).

5. Substitution of Coal Run for Elkhorn City, Kentucky as WPKE-FM's community of license would result in a preferential arrangement of allotments, pursuant to Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1982); Amendment of the Commission's Rules Regarding Modification of FM and TV

Authorizations to Specify a New Community of License, 4 FCC Rcd 4870 (1989). The substitution would provide Coal Run, Kentucky with its first local aural transmission service (fulfilling the Commission's third priority for FM allocations), while Elkhorn, Kentucky would continue to receive local service from WBPA(AM), Elkhorn City, Kentucky and additional full-time commercial aural service from at least five other stations.

6. Further, the allocation of Channel 276A to Coal Run will provide 60 dBu service to an area of 2,513 square kilometers (a gain of 298 square kilometers) serving a population of 89,960 (1990 U.S. Census). This represents a net gain of 20,414 persons (an increase of 29,4%) (total gain of 39,922 persons less population loss of 19,508 persons).^{2/} Thus, the objectives of 47 U.S.C. § 307(b) would be served by substituting the community of license for Channel 276A from Elkhorn City, Kentucky to Coal Run, Kentucky.

7. East Kentucky Broadcasting Corporation hereby certifies that it has a present intention to apply for the new channel when allotted, and when authorized will build the modified facilities promptly and commence operation on Channel 276A at Coal Run, Kentucky.

WHEREFORE, for the foregoing reasons, it is respectfully requested that the Commission commence a rule making proceeding to reallocate Channel 276A from Elkhorn City to Coal Run, Kentucky

^{2/} All of the persons losing service reside in Virginia.

and to modify the license of WPKE-FM to specify operation on
Channel 276A at Coal Run, Kentucky.

Respectfully submitted,

EAST KENTUCKY BROADCASTING CORP.

November 22, 1999

TECHNICAL REPORT

This technical report has been developed on behalf of East Kentucky Broadcasting Corporation, licensee of station WPKE-FM currently licensed to Elkhorn City, KY, in support of a petition for rulemaking requesting a change in community of license to Coal Run, KY (1990 population – 262) providing a first local aural service.

I. ALLOCATION ANALYSIS

Exhibit E-1 demonstrates that WPKE-FM's channel 276A may be allocated at a site 13.4 kilometers south of Coal Run (community reference point of N 37-30-47 W 82-33-31) in compliance with all Commission separation and allocation requirements (see Exhibit E-1) at coordinates:

N 37-23-57 W 82-30-32 (13.4 km at an azimuth of 340.9 degrees to Coal Run).

Exhibit E-2 shows that from the allocation site At this location, the proposed allotment will provide 70 dBu service to Coal Run based on a uniform 16.2 km contours as well as on a terrain based contour – see E-2. A terrain plot is included as exhibit E-3 demonstrating a line of sight to Coal run from the allocation point. Note that the elevation of the allocation point obtained from the Pikeville, KY 7.5 minute topographic quadrangle is 2,000 feet AMSL. A 500 foot tower was assumed for the purposes of the plot.

The area which will lose service from the existing licensed WPKE-FM directional facility

is plotted in Exhibit E-4. It is evident from that exhibit that the loss area continues to receive at least five or more full-time commercial aural services. This analysis was based on the Commission's procedure of utilizing maximum permissible non-directional facilities for all FM stations except for class C where actual licensed facilities were utilized. A non-directional 28.3 km 60 dBu contour was utilized for the proposed Coal Run allocation while the existing directional terrain based 60 dBu was used for the licensed WPKE-FM. Use of a uniform 28 km contour for the licensed WPKE-FM operation would not change the result. The loss area would continue to receive five or more full-time services.

It is also evident from E-1 that the 276A Coal Run allocation is entirely mutually exclusive with the licensed WPKE-FM facility on 276A. Furthermore, Elkhorn City will continue to receive service from AM station WBPA at Elkhorn City. Thus, Elkhorn City will continue to have a local aural service.

II. Population Analysis

The proposed Coal Run 276A allocation will provide a 60 dBu service to an area of 2,513 square kilometers which includes a 1990 population of 89,960. This represents a gain of 39,922 which is adjusted by the population loss of 19,508 to yield a net population gain of 20,414. It is noted that the entire population loss is in the state of Virginia.

The proposed Coal Run allocation will also provide a gain in total service area of 298 square kilometers when compared to the licensed WPKE-FM facility at Elkhorn City.

III. Conclusion

The reallocation of WPKE-FM from Elkhorn City, KY to Coal Run, KY will provide a first local service to Coal Run (1990 population - 262) thereby fulfilling the Commission's third priority for FM allocations. Furthermore, the Coal Run allocation will provide a net population increase within the 60 dBu contour of 20,414 (+29.4%).

At the same time, Elkhorn City will continue to be served by AM station WBPA, and the WXCM 60 dBu loss area will continue to receive five or more full-time aural services.
