Re: Ex Parte Presentations - In the Matter of AT&T Corp. and
MediaOne Group, Inc. Applications for Consent in the Transfer of
Control of Licenses
CS Docket No. 99-251

Dear Ms. Salas:

On January 13, 2000, representatives of Seren Innovations, Inc. met with Commission staff to discuss program access issues raised by the AT&T/MediaOne proposed acquisition.

Present for Seren Innovations were Peter Glass, General Counsel of Seren, and James W. Olson of Howrey & Simon. Present for the Commission were William Johnson, Deputy Chief, To-Quyen Truong, Associate Bureau Chief, and Royce Dickens, Darrell Cooper and Anne Levine, all of the Cable Services Bureau.

At the meeting, the Seren representatives explained difficulties they have experienced in obtaining popular video programming due to AT&T's anti-competitive behavior. Specifically, the Seren representatives detailed AT&T's refusal to allow the Midwest Sports Channel, with which AT&T's affiliate has an exclusive contract, to be provided to Seren in Minnesota. This refusal continued even after Seren raised the issue during the AT&T/TCI merger proceeding and AT&T/TCI in response represented to the Commission that it would act "reasonably and responsibly in this area." In addition, the Seren representatives described AT&T's refusal to allow BayTV, a terrestrially-delivered cable network in which AT&T has a major ownership interest, to be provided to Seren in Northern California. AT&T's ability to engage in such coercive and anti-competitive behavior will be increased by its acquisition of MediaOne with its large number of monopoly local franchises and ownership interest in TimeWarner Entertainment.

Copies of Seren's September 17, 1999 Reply Comments in the AT&T/MediaOne Proceeding and Seren's October 28, 1998 Petition to Deny the Applications of Tele-Communications, Inc. and AT&T Corporation or, in the Alternative, to Impose Conditions in CS Docket No. 98-178, were provided to Commission staff attending the meeting.

Respectfully submitted,

James W. Olson
Counsel for Seren Innovations, Inc.
