Re: Supplement to Petition to Amend the FM Table of Assignments
Be-More Broadcasting Company
Exmore, Virginia
Cheriton, Virginia

Dear Ms. Salas:

Please find attached a Supplement to the above-referenced Petition filed on July 27, 1999. The Supplement provides engineering data supporting reallocation of Channel 291B1 from Exmore, Virginia and allocation of Channel 291B to Cheriton, Virginia.

Please direct any questions to the undersigned.

Respectfully submitted,

BE-MORE BROADCASTING COMPANY

STATEMENT OF WILLIAM J. GETZ
IN SUPPORT OF A PETITION TO AMEND
THE FM TABLE OF ALLOTMENTS

I am a Radio Engineer, an employee in the firm of Carl T. Jones Corporation with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission.

This office has been authorized by Be-More Broadcasting, permittee of a new commercial FM station to serve Exmore, Virginia [FCC Construction Permit No.BPH-951109MC], to prepare this statement in support of a Petition to Amend the FM Table of Allotments, Section 73.202(b) of the FCC Rules and Regulations. The petitioner requests that Section 73.202(b) of the FCC Rules be modified in the following manner:

	<u>Present</u>	<u>Proposed</u>
Exmore, VA	291B1, 298B	298B
Cheriton, VA	---	291B

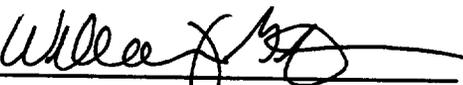

The instant Petition for Rulemaking will allow the permittee to increase to a fully-spaced maximum Class B facility and relocate in order to provide a first local service to Cheriton, Virginia. Full service commercial radio station WKHI(FM) will continue to provide local service to Exmore, Virginia.

STATEMENT OF WILLIAM J. GETZ
PAGE 2

An engineering study of all pertinent allotments, assignments and applications revealed that Channel 291B can be allotted to Cheriton, Virginia, with a site restriction of 18.6 kilometers northeast. The allotment reference coordinates for Channel 291B at Cheriton, Virginia are $37^{\circ} 26' 25''$ N.L. and $75^{\circ} 52' 51''$ W.L.¹ The Cheriton allotment reference site meets the allotment standards, the minimum spacing requirements of §73.207 and the city-grade coverage requirements of §73.315 of the FCC Rules.

This statement was prepared by me or under my direct supervision and is believed to be true and correct.

DATED: August 9, 1999

William J. Getz
