 Amendment of the Commission's)
 Regulatory Policies to Allow Non-U.S.) IB Docket No. 96-111
 Licensed Space Stations to Provide)
 Domestic and International Satellite)
 Service in the United States)

ERRATUM

Released: March 16, 2000

1. On October 29, 1999, the Commission released a *First Order on Reconsideration* in IB Docket No. 96-111, streamlining the process by which non-U.S. licensed fixed satellites may obtain authority to serve the U.S. market.¹ In Appendix A to that Order, the Commission revised Section 25.137(b) of its rules. The amendatory language in Appendix A inadvertently deleted all text in Section 25.137(b) after the first sentence, rather than revising only the first sentence. This document corrects that error. In Appendix A to the *DISCO II First Reconsideration Order*, Section 25.137(b) is corrected to read as follows:

(b) Earth station applicants, or entities filing a "letter of intent," or "Petition for Declaratory Ruling," requesting authority to operate with a non-U.S. licensed space station must attach to their FCC Form 312 an exhibit providing legal, financial, and technical information for the non-U.S. licensed space station in accordance with Part 25 and Part 100 of this Chapter. If the non-U.S. licensed space station is in orbit and operating, the applicant need not include the financial information specified in §§ 25.114(c)(17) and (c)(18) of this part. If the international coordination process for the non-U.S. licensed space station has been completed, the applicant need not include the technical information specified in §§ 25.114(c)(5 through 11) and (c)(14) of this part, unless the technical characteristics differ from the characteristics established in that process.

FEDERAL COMMUNICATIONS COMMISSION

Thomas S. Tycz
Chief, Satellite and Radiocommunication Division
International Bureau

¹ Amendment of the Commission's Regulatory Policies to Allow Non-U.S. Licensed Space Stations to Provide Domestic and International Satellite Service in the United States, First Order on Reconsideration, IB Docket No. 96-111, FCC 99-325 (released Oct. 29, 1999).
