Re: Ex Parte Presentation  
Digital Audio Broadcasting Systems and Their Impact  
On the Terrestrial Radio Broadcast Service, MM Docket No. 99-325

Dear Ms. Salas:

On April 10, 2000, Suren Pai, President and CEO of Lucent Digital Radio, Inc. ("LDR"), the undersigned, and other LDR staff met with Thomas Power, Senior Legal Advisor to the Chairman, at the National Association of Broadcasters' Convention in Las Vegas, Nevada.

During the meeting, LDR demonstrated over-the-air reception of LDR's digital radio signal transmitted with the analog signal of KNPR. The LDR digital signal was transmitted within the existing analog emission mask of KNPR, and was demonstrated both simulcasting the same content as the analog signal and transmitting completely different program material. LDR reiterated arguments in its comments and reply comments that permitting broadcasters to migrate from analog to digital using LDR's in-band, on-channel (IBOC) system will be efficient and cost effective for broadcasters
